

Rugged and convertible, the Chromebook Spin 11 (R751TN & R751T) comes with a spill resistant, tamper-proof keyboard and meets rigorous U.S. Military Standards. It can be tossed around in a student's backpack or in the classroom, day in day out without suffering any damage. In addition to offering four usage modes via the 360° dual-torque hinge, the device supports the most natural stylus experience ever.

11.6" RUGGEDIZED CONVERTIBLE DESIGN
EMR PEN SUPPORT (R751TN)
SECOND CAMERA FOR USE IN TABLET MODE
360° HINGE DESIGN
HD IPS TOUCH PANEL
SPILL-RESISTANT KEYBOARD (330ML)

Chromebook Spin 11

**BORN TO BE TOUGH,
PERFECT FOR THE CLASSROOM**

Versatile usability

The 360° dual-torque hinge design ensures a wobble-free touch experience and offers four usage modes, easing school lessons and activities. While tent and display modes are great for displaying video content and for touch interactions, tablet mode is the best for field trips or for sketching with a stylus, and notebook mode is for typing and creating content.

With R751TN, the Chromebook Spin 11 with writing capabilities, comes the Wacom EMR pen. This pencil shaped EMR pen lets student sketch or jot down notes as naturally as with pen and paper. EMR pens are battery-free, resistant to accidental drops and the cost of replacement is low with respect to similar solutions on the market.

Smudge-free display

The Chromebook Spin 11 comes with an 11.6" HD IPS display protected by Antimicrobial Corning® Gorilla® Glass. This type of glass exploits the antimicrobial properties of silver to prevent the growth of microorganisms on the surface and to keep the display smudge-free as a result.

This feature comes in handy when students shoot videos or photos with the webcam located on the keyboard side, as it ensures a crystal clear view of what they are recording. The 5MP autofocus HD webcam located on the keyboard side has an 88° wide viewing angle so that more content can fit on the screen.

Brilliant performance

Powered by 7th Generation Intel® Celeron® processors, the Chromebook Spin 11 comes with 4GB/8GB LPDDR4 memory and up to 64GB storage through eMMC storage for seamless performance.

A long lasting battery (up to 10 hours) supports all-day learning at school, at home or on the go.

The fanless design makes for quiet operation, even in a classroom full of computers.

Seamless connections

The fast dual-band 2x2 MIMO 802.11ac Wi-Fi provides connectivity to school or home networks.

Several peripherals can be connected to the device via Bluetooth 4.2, two USB 3.0 ports and two USB 3.1 Gen 1 Type-C™ ports, which can be used for power or data transfer, as well as for connecting a display to extend the work area.

Secure and easy to manage

The Spin 11 has built-in security features that protect the device from being tampered with. On top, the chrome OS is automatically updated every 6 weeks, or earlier in case of need, providing optimal security against viruses and malware. To discourage theft, the device can be secured to a cart or a desk with a Kensington lock.

Chromebook Spin 11 is easy to deploy and manage, helping IT administrators to save resources and time.

Built to be durable

The Chromebook Spin 11 has been specifically designed to endure the wear and tear of rough daily use. The chassis is reinforced with a honeycomb structure, corners are bolstered, and a rubber bumper runs all around the keyboard. As a result, the Chromebook Spin 11 can withstand drops from heights up to 122cm and is resistant to stress.

The keyboard with recessed keys makes it difficult to remove the key caps.

A unique drainage system can quickly drain up to 330 ml of liquid spilt over the keyboard, preventing damage to internal parts. As a further proof of its toughness, the Chromebook Spin 11 passed severe testing to meet the demanding U.S. MIL-STD 810G military standard¹.

More resistant to drops

Corners are reinforced to withstand up to 122 cm of drop height with no harm.

More resistant to pressure

The honeycomb structure inside the C-cover make the body strong enough to endure up to 60kg of pressure.

More resistant to twist

The top cover is sturdy and designed to provide more protection from twist and torsion.

Millions of apps

Chromebook Spin 11 comes with full access to the Google Play Store, including Google Apps for Education, a set of productivity tools designed to enable teachers and students to communicate, collaborate, and share.
