

Data sheet

HP L5015tm Touch Monitor

Add a little touch to your business.

Complete your desktop solution with the HP L5015tm Touch Monitor, a durable, interactive touchscreen display in a sleek, thin form factor that integrates easily into your point of sale (POS), hospitality, educational, banking, manufacturing, and kiosk environments.

Slim, compact design

Deploy the monitor wherever you need an interactive solution. The small, thin footprint fits in a range of settings, and the stand can be removed for wall-mount setups.¹ Save space and money by eliminating the need for a separate keyboard and mouse.

Efficient, durable touch

Interact with the screen with a pen, credit card, finger or fingernail. The Acoustic Pulse Recognition (APR) technology identifies screen taps by sound. The sturdy design is a damage-resistant alternative to earlier film-coated display screens.

Ample visuals

Keep working with your familiar, established, business-specific applications on the 15-inch diagonal screen that has a 1024 x 768 native resolution² and familiar 4:3 aspect ratio.

Global reassurance

Rest assured that your IT investment is supported by a three-year standard limited warranty. To extend your protection beyond the standard limited warranties, select optional HP Care Pack Services.³

HP L5015tm Touch Monitor
