

SAMSUNG

INSTALL GUIDE

5 SERIES

HG32T5300E

Thank you for purchasing this Samsung product.

To receive more complete service, please register your product at www.samsung.com

Model _____ Serial No. _____

Before Reading This Install Guide

This TV B2B (Business to Business) model is designed for hotels or the other hospitality businesses, supports a variety of special functions, and lets you limit some user (guest) controls.

Figures and illustrations in this Install Guide are provided for reference only and may differ from the actual product appearance. Product design and specifications may change without notice.

Operational Modes

This TV has **Standalone** mode.

- In this mode, the TV works alone without an external SBB or the STB.

The TV has a **Admin menu** that lets you easily set its various hospitality functions. Please see page 23.

The menu also lets you activate or de-activate some TV and hospitality functions so you can create your optimal hospitality configuration.

Still image warning

Avoid displaying still images (such as jpeg picture files) or still image elements (such as TV channel logos, panorama or 4:3 format images, stock or news bars or crawls) on the screen. Displaying still pictures continually can cause uneven screen wear, which will affect image quality. To reduce the chance that this effect will occur, please follow the recommendations below:

- Avoid displaying the same TV channel for long periods.
- Always try to display a full screen image.
- Reduce brightness and contrast to help prevent the occurrence of after-images.
- Use all TV features designed to reduce image retention and screen burn-in.

Warning! Important Safety Instructions

Please read the Safety Instructions before using your TV.

Refer to the table below for an explanation of symbols which may be on your Samsung product.

CAUTION			Class II product: This symbol indicates that a safety connection to electrical earth (ground) is not required. If this symbol is not present on a product with a main lead, the product MUST have a reliable connection to protective earth (ground).
RISK OF ELECTRIC SHOCK. DO NOT OPEN.			
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER ALL SERVICING TO QUALIFIED PERSONNEL.			AC voltage: Rated voltage marked with this symbol is AC voltage.
	This symbol indicates that high voltage is present inside. It is dangerous to make any kind of contact with any internal part of this product.		DC voltage: Rated voltage marked with this symbol is DC voltage.
	This symbol indicates that this product has included important literature concerning operation and maintenance.		Caution. Consult instructions for use: This symbol instructs the user to consult the install guide for further safety related information.

- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus and to protect it from overheating, these slots and openings must never be blocked or covered.
 - Do not place this apparatus in a confined space, such as a bookcase or built-in cabinet, unless proper ventilation is provided.
 - Do not place this apparatus near or over a radiator or heat register, or where it is exposed to direct sunlight.
 - Do not place vessels (vases etc.) containing water on this apparatus, as this can result in a fire or electric shock.
- Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.). If this apparatus accidentally gets wet, unplug it and contact an authorised dealer immediately.
- This apparatus uses batteries. In your community, there might be environmental regulations that require you to dispose of these batteries properly. Please contact your local authorities for disposal or recycling information.
- Do not overload wall outlets, extension cords, or adaptors beyond their capacity, since this can result in fire or electric shock.
- Power-supply cords should be placed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at the plug end, at wall outlets, and at the point where they exit from the appliance.
- To protect this apparatus from a lightning storm, or when left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges.

- Before connecting the AC power cord to the DC adaptor outlet, make sure that the voltage designation of the DC adaptor corresponds to the local electrical supply.
- Never insert anything metallic into the open parts of this apparatus. This may cause a danger of electric shock.
- To avoid electric shock, never touch the inside of this apparatus. Only a qualified technician should open this apparatus.
- Be sure to plug in the power cord until it is firmly seated. When unplugging the power cord from a wall outlet, always pull on the power cord's plug. Never unplug it by pulling on the power cord. Do not touch the power cord with wet hands.
- If this apparatus does not operate normally - in particular, if there are any unusual sounds or smells coming from it - unplug it immediately and contact an authorised dealer or Samsung service centre.
- Be sure to pull the power plug out of the outlet if the TV is to remain unused or if you are to leave the house for an extended period of time (especially when children, elderly, or disabled people will be left alone in the house).
 - Accumulated dust can cause an electric shock, an electric leakage, or a fire by causing the power cord to generate sparks and heat or by causing the insulation to deteriorate.
- Be sure to contact an authorised Samsung service centre for information if you intend to install your TV in a location with heavy dust, high or low temperatures, high humidity, chemical substances, or where it will operate 24 hours a day such as in an airport, a train station, etc. Failure to do so may lead to serious damage to your TV.
- Use only a properly grounded plug and wall outlet.
 - An improper ground may cause electric shock or equipment damage. (Class I Equipment only.)
- To turn off this apparatus completely, disconnect it from the wall outlet. To ensure you can unplug this apparatus quickly if necessary, make sure that the wall outlet and power plug are readily accessible.
- Store the accessories (batteries, etc.) in a location safely out of the reach of children.
- Do not drop or strike the product. If the product is damaged, disconnect the power cord and contact a Samsung service centre.
- To clean this apparatus, unplug the power cord from the wall outlet and wipe the product with a soft, dry cloth. Do not use any chemicals such as wax, benzene, alcohol, thinners, insecticide, aerial fresheners, lubricants, or detergents. These chemicals can damage the appearance of the TV or erase the printing on the product.
- Do not expose this apparatus to dripping or splashing.
- Do not dispose of batteries in a fire.
- Do not short-circuit, disassemble, or overheat the batteries.
- **CAUTION:** There is danger of an explosion if you replace the batteries used in the remote with the wrong type of battery. Replace only with the same or equivalent type.
- **WARNING - TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES AND OTHER ITEMS WITH OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES.**
- Use care when touching the TV after it has been on for some time. Some parts can be warm to the touch.

01 What's in the Box?

Make sure the following items are included with your TV. If any items are missing, contact your dealer.

Remote Control & Batteries (AAA x 2)
(Not available in some locations)

Power Cord

Quick Setup Guide / Regulatory Guide
(Not available in some locations)

- The items' colours and shapes may vary depending on the models.
- Cables not included can be purchased separately.
- Check for any accessories hidden behind or in the packing materials when opening the box.

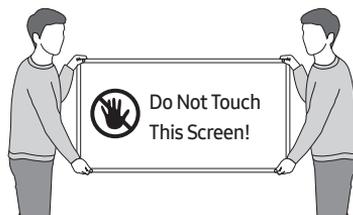

An administration fee may be charged in the following situations:

- (a) An engineer is called out at your request, but it is found that the product has no defect (i.e., where the user manual has not been read).
- (b) You bring the unit to a repair centre, but it is found that the product has no defect (i.e., where the user manual has not been read).

You will be informed of the administration fee amount before a technician visits.

The screen can be damaged from direct pressure when handled incorrectly. As shown in the figure, make sure to grip the edges of the screen when you lift the TV.

Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Correct disposal of the batteries in this product

(Applicable in countries with separate collection systems)

This marking on battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

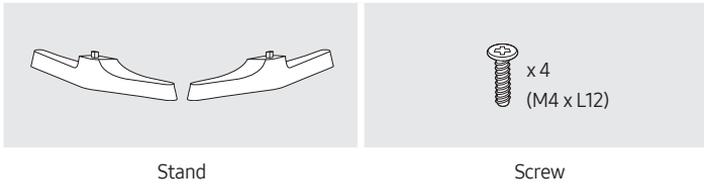

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

For information on Samsung's environmental commitments and product-specific regulatory obligations, e.g. REACH, WEEE, Batteries, visit http://www.samsung.com/uk/aboutsamsung/samsungelectronics/corporatecitizenship/data_corner.html

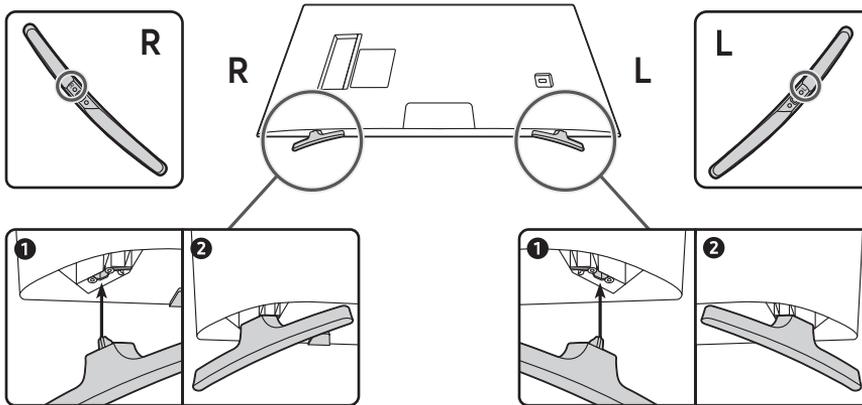

Installing the LED TV Stand

Assembling the Stand and Components

When installing the stand, use the provided components and parts.

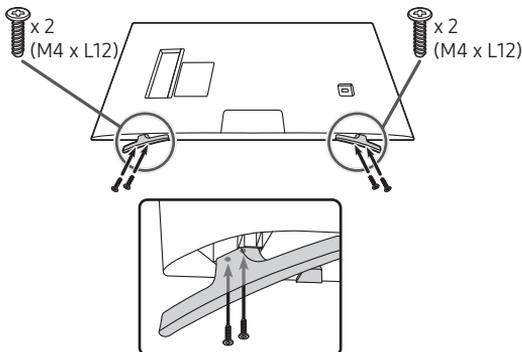

1

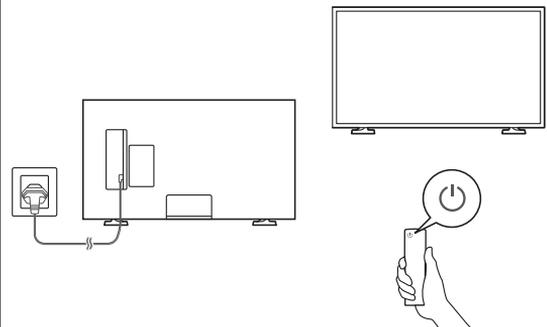

NOTE

- Place a soft cloth over the table to protect the TV, and then place the TV so that its screen faces down toward the table surface.
- Insert the Stands into the slot on the bottom of the TV.

2

3

NOTE

- Make sure that at least two persons lift and move the TV.
- Make sure to distinguish between the front and back of each component when assembling them.

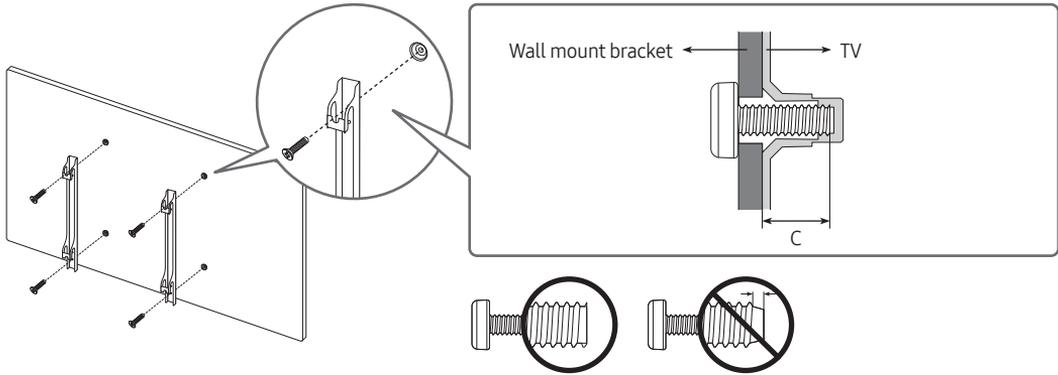

02 TV Installation

Mounting the TV on a wall

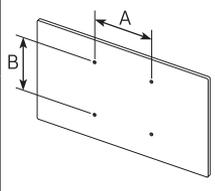

If you mount this TV on a wall, follow the instructions exactly as set out by the manufacturer. Unless it is correctly mounted, the TV may slide or fall and cause serious injury to a child or adult and serious damage to the TV.

- You can mount the TV on the wall using a wall mount kit (sold separately).
- Refer to the installation manual included with the Samsung wall mount kit.

- Samsung is not responsible for any damage to the product or injury to yourself or others if you choose to install the wall mount on your own.
- You can install your wall mount on a solid wall perpendicular to the floor. Before attaching the wall mount to surfaces other than plaster board, contact your nearest dealer for additional information. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury.
- Standard dimensions for wall mount kits are shown in the table on the next page.
- If you are installing a third-party wall mount, note that the length of the screws you can use to attach the TV to the wall mount is shown in column C in the table on the next page.
- When installing a wall mount kit, we recommend you fasten all four VESA screws.
- If you want to install a wall mount kit that attaches to the wall using two top screws only, be sure to use a Samsung wall mount kit that supports this type of installation. (You may not be able to purchase this type of wall mount kit, depending on the geographical region.)

TV size in inches	VESA screw hole specs (A * B) in millimetres	C (mm)	Standard Screw	Quantity	
32	100 x 100	26-28	M4	4	

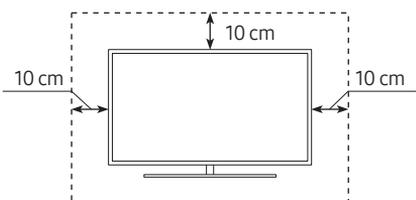

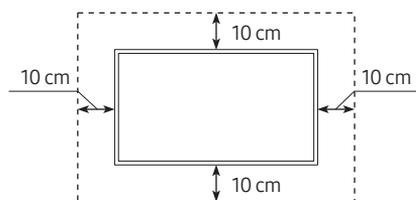

Do not install your wall mount kit while your TV is turned on. This may result in personal injury from electric shock.

- Do not use screws that are longer than the standard dimension or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
- Do not fasten the screws too firmly. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or when the consumer fails to follow the product installation instructions.
- Do not mount the TV at more than a 15 degree tilt.
- Always have two people mount the TV onto a wall.

Providing proper ventilation for your TV

When you install your TV, maintain a distance of at least 10 cm between the TV and other objects (walls, cabinet sides, etc.) to ensure proper ventilation. Failing to maintain proper ventilation may result in a fire or a problem with the product caused by an increase in its internal temperature.

- When you install your TV with a stand or a wall mount, we strongly recommend you use parts provided by Samsung only. Using parts provided by another manufacturer may cause difficulties with the product or result in injury caused by the product falling.

Installation with a stand	Installation with a wall mount
	

Safety Precaution: Securing the TV to the wall to prevent falling

Caution: Pulling, pushing, or climbing on the TV may cause the TV to fall. In particular, ensure your children do not hang on or destabilise the TV. This action may cause the TV to tip over, causing serious injuries or death. Follow all safety precautions provided in the Safety Flyer included with your TV. For added stability and safety, you can purchase and install the anti-fall device as described below.

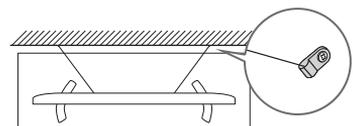

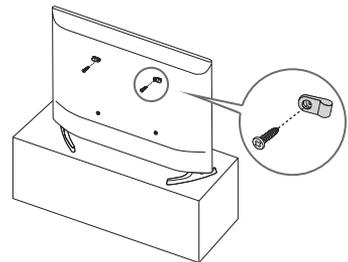

WARNING: Never place a television set in an unstable location. The television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Always use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
- Always use furniture that can safely support the television set.
- Always ensure the television set is not overhanging the edge of the supporting furniture.
- Always educate children about the dangers of climbing on furniture to reach the television set or its controls.
- Always route cords and cables connected to your television so they cannot be tripped over, pulled or grabbed.
- Never place a television set in an unstable location.
- Never place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Never place the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Never place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied.

Preventing the TV from falling

1. Using the appropriate screws, firmly fasten a set of brackets to the wall.
Confirm that the screws are firmly attached to the wall.
 - You may need additional material such as wall anchors depending on the type of wall.
2. Using the appropriately sized screws, firmly fasten a set of brackets to the TV.
 - For the screw specifications, refer to the standard screw part in the table under "Mounting the TV on a wall".
3. Connect the brackets fixed to the TV and the brackets fixed to the wall with a durable, heavy-duty string, and then tie the string tightly.
 - Install the TV near the wall so that it does not fall backwards.
 - Connect the string so that the brackets fixed to the wall are at the same height as or lower than the brackets fixed to the TV.

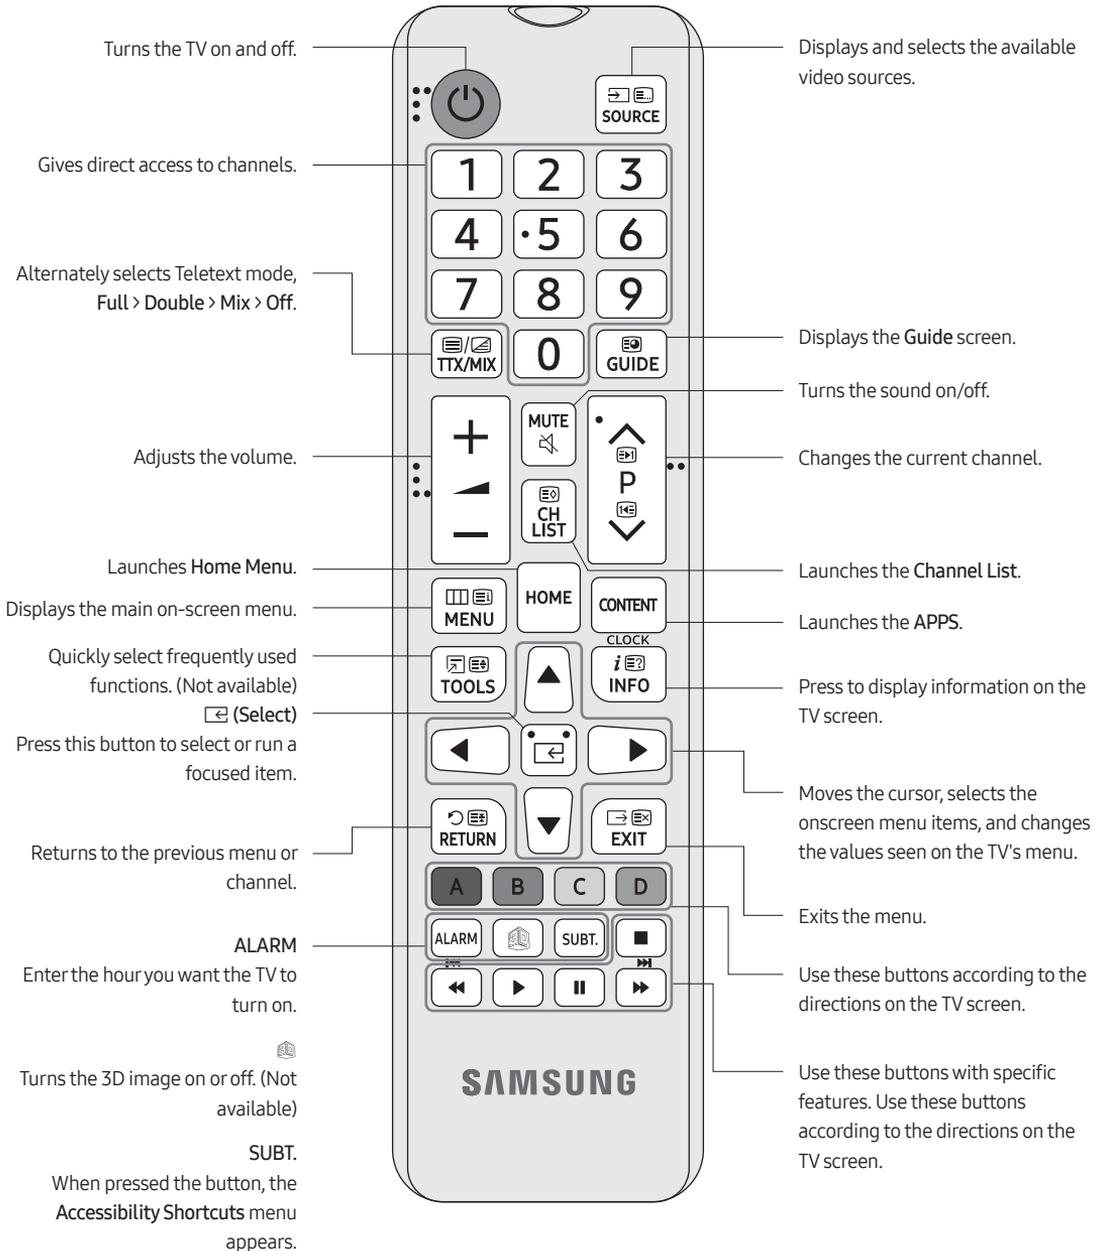

- The product colour and shape may vary depending on the model.

03 The Remote Control

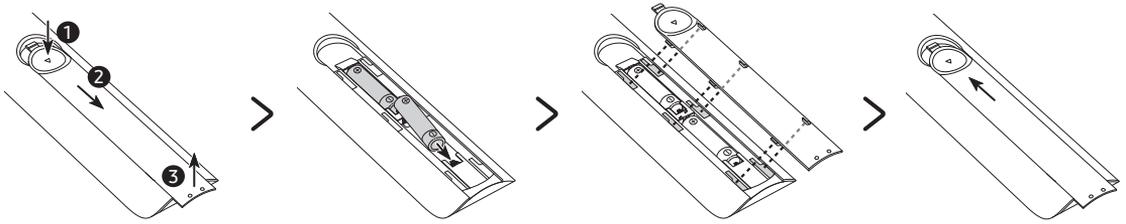

About the Buttons on the Remote Control

- The images, buttons, and functions of the remote control may differ depending on the model.
- The remote control has Braille points on the **Power**, **Channel**, **Volume**, and **Select** buttons and can be used by visually impaired persons.
- If you use the remote control that comes with your TV to control another TV, some functions may not operate normally.

Installing batteries into the remote control (Battery size: AAA)

Match the polarities of the batteries to the symbols on the battery compartment.

- The colour and shape of the remote may vary depending on the model.
 - Use the remote control within 7 m of the TV.
 - Bright lights may affect the performance of the remote control. Avoid using the remote control near special fluorescent lights or neon signs.
 - Alkaline batteries are recommended for longer battery life.
1. Gently pull on the battery cover's notch and then remove the cover completely once it comes loose.
 2. Insert 2 AAA alkaline batteries, making sure to align the positive and negative polarities correctly.
 3. Place the battery cover on the remote control and insert the cover into the remote control.
 4. Slide the battery cover in the order shown above so that the cover is completely attached to the remote control.

04 Initial Setup

When you turn on your TV for the first time, it immediately starts the Initial Setup. Follow the instructions displayed on the screen and configure the TV's basic settings to suit your viewing environment.

If you already completed the Initial Setup, run the Initial Setup again using the following menu.

- **Admin menu > System > TV Reset**

If you select **TV Reset**, the TV resets all values to their factory defaults. When the TV turns off, press the **Power** button on the remote control to turn on the TV. The TV starts the Initial Setup.

- The Initial Setup steps may differ with the model or geographical area.

Select the region settings

- 1
 - Before select region, refer to the country list information on the right.
 - If you select the incorrect region, execute **TV Reset** again after the Initial Setup is completed.
 - If the region is changed, the TV automatically turns off and on.

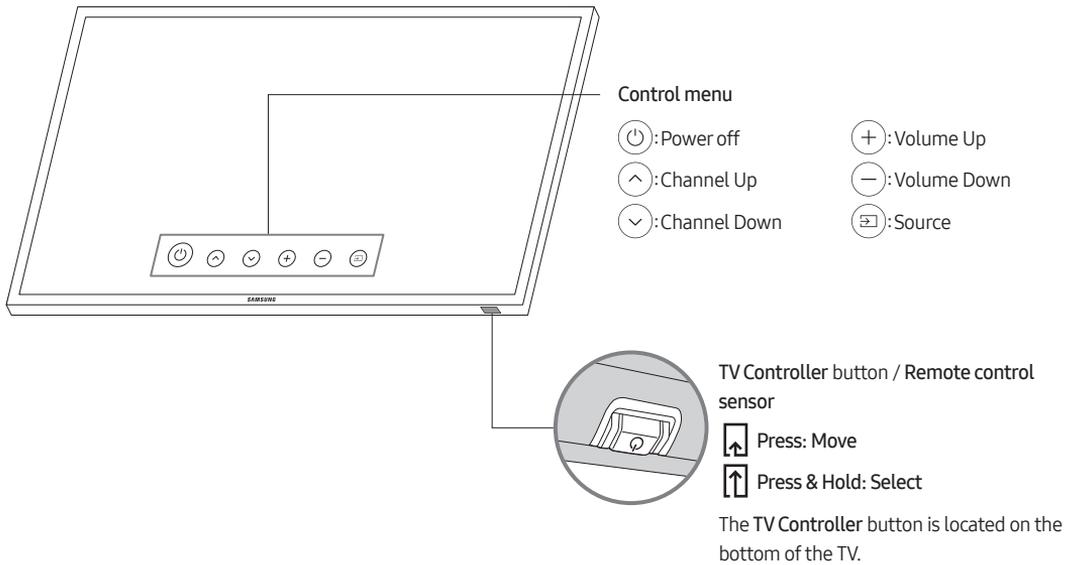

Selecting your TV installation type

- 2
 - **Basic TV Setup:** Select to proceed to the next step to set the basic options for using your TV.
 - **Cloning Mode:** Copy the system settings from the USB or server to the TV.
 - **Factory Menu:** End Initial Setup and go to **Admin menu** directly.

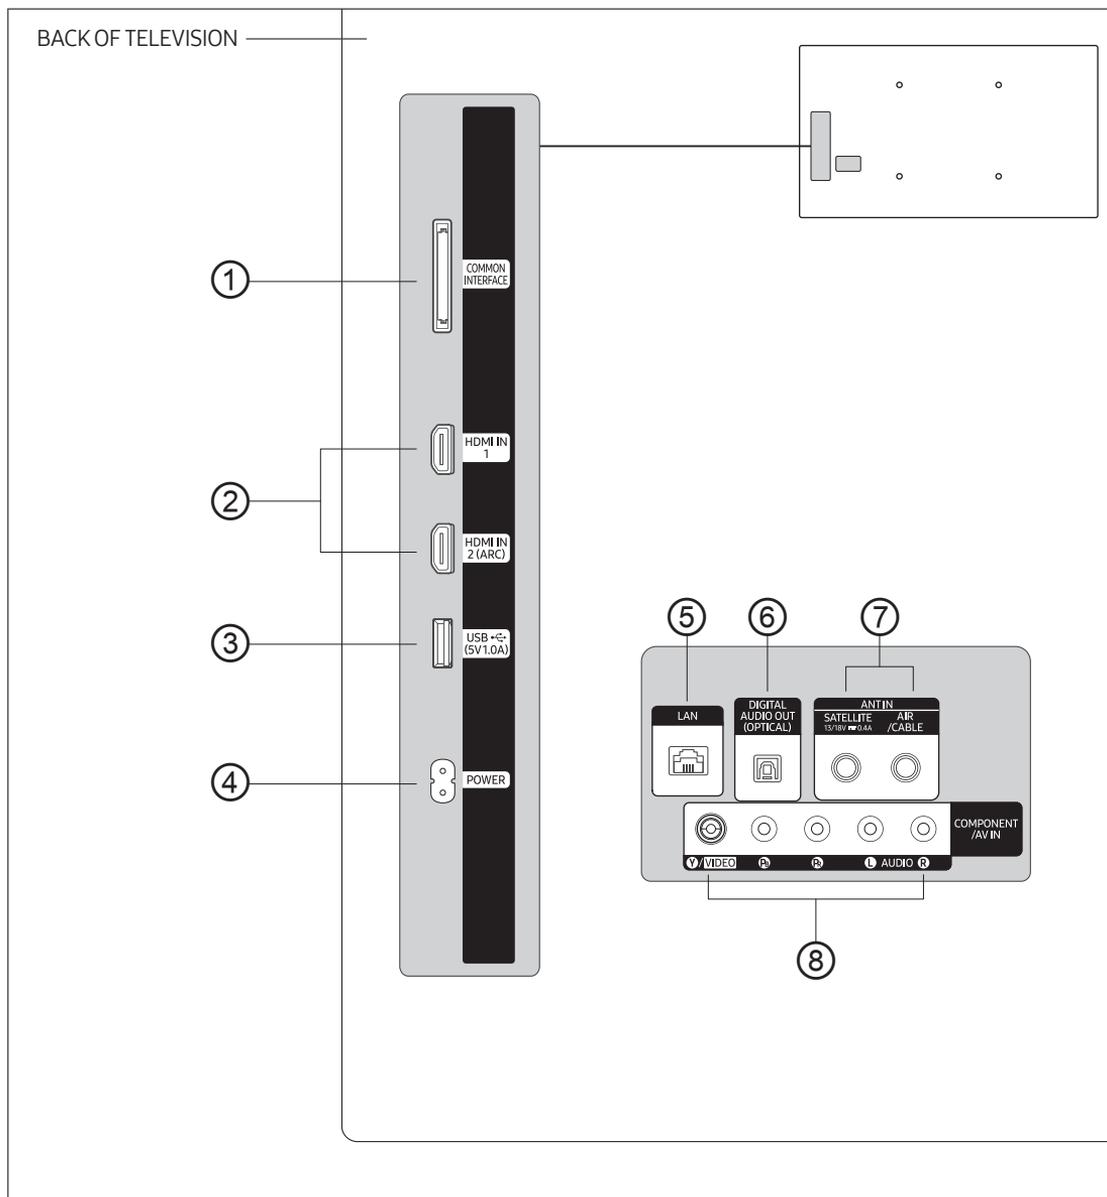

-
- Follow the instructions on the screen to configure the settings for your own viewing environment.

Using the TV Controller

You can turn on the TV with the **TV Controller** button at the bottom of the TV, and then use the **Control menu**. The **Control menu** appears when the **TV Controller** button is pressed while the TV is On. For more information about its usage, refer to the figure below.

05 The Connection Panel

- When connecting an external device, match the colour of the connection port to the cable.
- Whenever you connect an external device to your TV, make sure that power on the TV and the device is turned off.

① COMMON INTERFACE

Watches paid channels by inserting your TV viewing card ("CI or CI+ Card") into the COMMON INTERFACE slot.

② HDMI IN 1, 2 (ARC)

Connects to the HDMI jack of a device with an HDMI output.

- No separate sound connection is needed for an HDMI to HDMI connection. HDMI connections carry both audio and video.
- It is recommended that the external device of the HDMI 1.3 or 1.4 version will be used with this TV. If you meet the compatible problem like no sound or the abnormal screen or etc with the device of the HDMI 1.2 version, contact to the Samsung customer care centre.

③ USB (5V1.0A)

- Connector for software upgrades and Media Play, etc.
- Service connection.

④ POWER

⑤ LAN

To connect a LAN cable, use a CAT 7 (*STP type) cable for the connection. (100/10 Mbps)

* Shielded Twisted Pair

⑥ DIGITAL AUDIO OUT (OPTICAL)

Connects to a Digital Audio component.

⑦ ANT IN (SATELLITE), (AIR/CABLE)

- To view television channels correctly, the TV must receive a signal from one of the following sources:
- An outdoor antenna / A cable television system / A satellite receiver

⑧ COMPONENT IN / AV IN

Use to connect to Component video / audio devices such as DVD players and AV (Composite) devices such as VCRs.

- Connect audio cables to **R-AUDIO-L** on your TV and the other ends to corresponding audio out ports on AV (Composite) devices.
- Connect component video cables (not supplied) to the component ports (**PR, PB, Y**) on your TV and the other ends to corresponding component video out ports on a DVD player. Match the colours on the ports and cables.
- If you want to connect both a set-top box and a DVD player, you should connect the set-top box to the DVD and connect the DVD to the component ports (PR, PB, Y) on your TV.
- The PR, PB and Y ports on your component devices (DVD) are sometimes labelled R-Y, B-Y and Y or Cr, Cb and Y.
- For AV (Composite), connect RCA audio cables (not supplied) to **R-AUDIO-L** on your TV set and the other ends to corresponding audio out ports on an external device.
- When you are connecting a AV (Composite) device to **AV IN [Y/Video]**, connect the video cable (yellow) to the **AV IN [Y/VIDEO]** port (green/yellow).

06 Connections

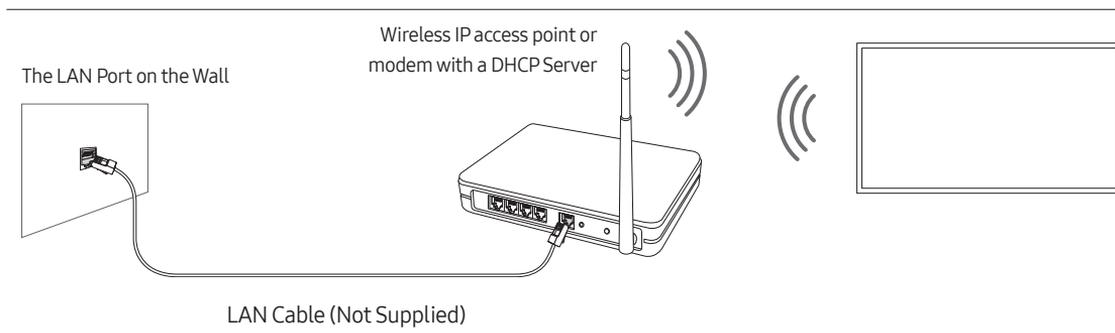

Connecting to your Internet network

You can set up your TV so that it can access the SMART TV applications through your local area network (LAN) using a wired or wireless connection.

- After you have physically connected the TV to your network, you must configure the network connection to complete the process. You can configure the connection through the initial setup process or the **Admin menu** (Admin menu > Smart Service > Network Setup).

Establishing a wireless Internet connection

Connect the TV to the Internet using a wireless access point or modem.

- This TV supports the IEEE 802.11 a /b /g /n /ac communication protocols. Samsung recommends using IEEE 802.11n. Otherwise, when you play video over a network connection, the video may not play smoothly.
 - Some of the IEEE 802.11 communication protocols may not be supported depending on the model or geographical area.
- To use a wireless network, the TV must be connected to a wireless access point or modem. If the wireless access point supports DHCP, the TV can use a DHCP or static IP address to connect to the wireless network.
- Select a channel that is not currently in use for the wireless access point. If the channel set for the wireless access point is currently being used by another device, the result is usually interference and/or a communications failure.
- Most wireless networks have an optional security system. To enable a wireless network's security system, you need to create a security key using characters and numbers, and then enter that key into the access point through its menu. You then must enter this security key into any other devices you want to connect to the wireless network.

Network Security Protocols

The TV only supports the following wireless network security protocols:

- Authentication Modes: WEP, WPAPSK, WPA2PSK
- Encryption Types: WEP, TKIP, AES

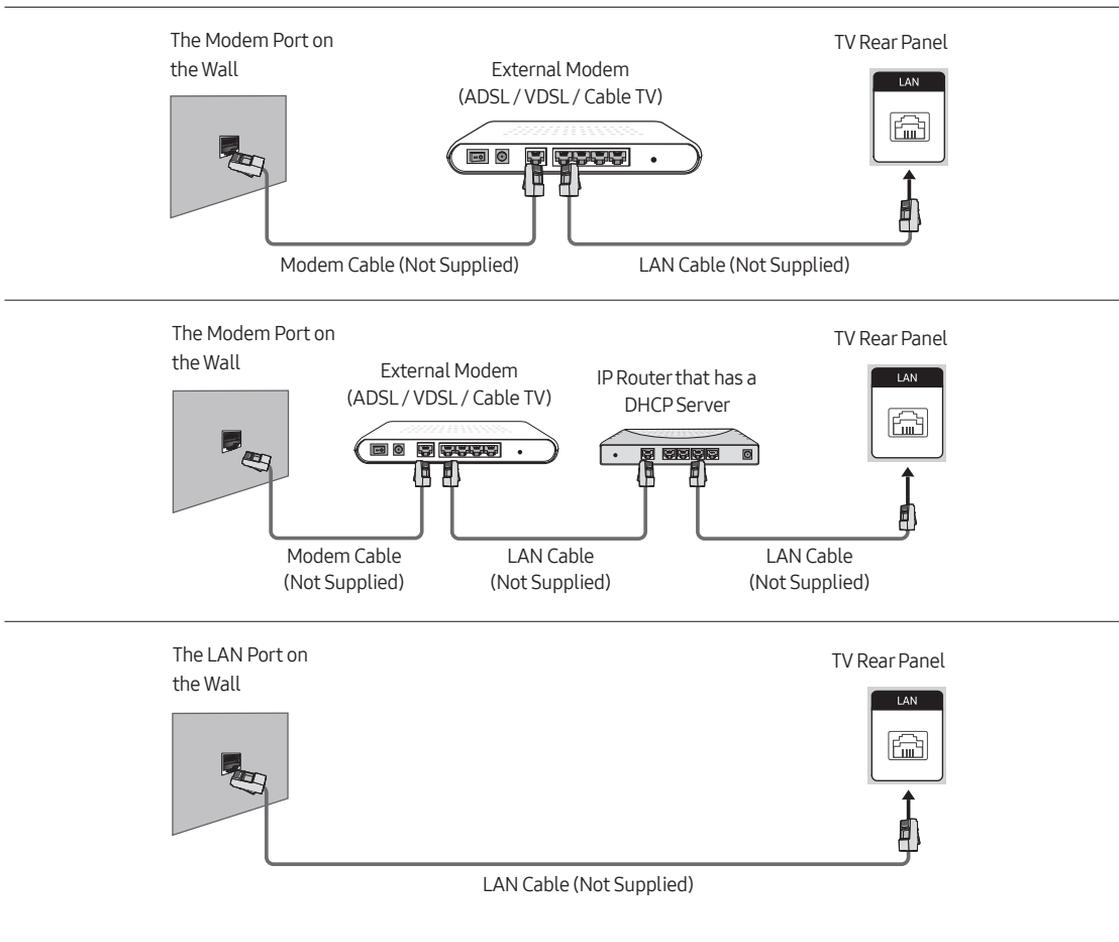

In compliance with the Wi-Fi certification specifications, Samsung TVs do not support WEP or TKIP security encryption in networks running in the 802.11n mode.

If the wireless access point supports WPS (Wi-Fi Protected Setup), you can connect the TV to your network using PBC (Push Button Configuration) or a PIN (Personal Identification Number). WPS automatically configures the SSID and WPA key settings.

Your Smart TV cannot connect to uncertified wireless access point.

Establishing a wired Internet connection

There are three main ways to connect your TV to your network using cable, depending on your network setup. They are illustrated below:

- The TV will not be able to connect to the Internet if your network speed is below 10 Mbps. (The TV does not support network speeds less than or equal to 10Mbps.)
- Use CAT 7 (*STP type) cable for the connection.
 - * Shielded Twisted Pair

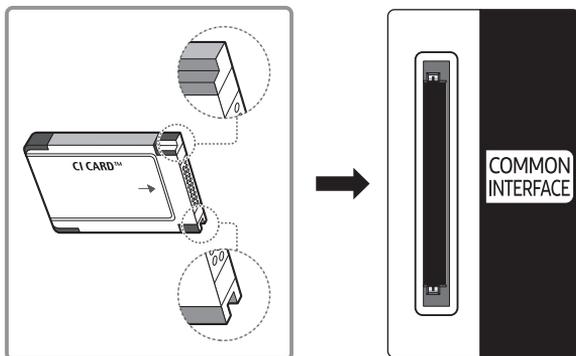

07 Using a TV Viewing Card (“CI or CI+ Card”)

Watches paid channels by inserting your TV viewing card (“CI or CI+ Card”) into the COMMON INTERFACE slot.

- The 2 CI card slots may not be supported depending on the model.
- Turn the TV off to connect or disconnect a “CI or CI+ Card”.
- The “CI or CI+ Card” may not supported depending on the model.

Connecting the “CI or CI+ Card” via COMMON INTERFACE slot

Connect the “CI or CI+ Card” to the COMMON INTERFACE slot as shown in the image below.

Using the “CI or CI+ Card”

To watch paid channels, the “CI or CI+ CARD” must be inserted.

- Samsung TV follow up CI+ 1.4 standard. When Samsung TV product display the pop-up message, it may happen due to CI+ 1.4 Version inconsistency. If you have a problem, please contact Samsung Call Centre.
 - Your Samsung TV conforms to the CI+ 1.4 standards.
 - Where a CI+ Common Interface module is incompatible with Samsung TV then please remove the module and contact the CI+ operator for assistance.
- If you don't insert the “CI or CI+ CARD”, some channels will display the pop-up message.
- The Pairing information will be displayed in about 2-3 minutes. If an error message is displayed, please contact your service provider.
- When the configuration of channel information has finished, the message “Updating Completed” is displayed, indicating the channel list is updated.
- You must obtain a “CI or CI+ CARD” from a local cable service provider.
- When removing the “CI or CI+ CARD”, carefully pull it out with your hands since dropping the “CI or CI+ CARD” may cause damage to it.
- Insert the “CI or CI+ CARD” in the direction marked on the card.
- The location of the COMMON INTERFACE slot may be different depending on the model.
- “CI or CI+ CARD” are not supported in some countries and regions. check with an authorized dealer to find out if “CI or CI+ CARD” are supported in your locality.
- If you have any problems, please contact a service provider.
- Insert the “CI or CI+ CARD” that supports the current aerial settings. If not, the screen may not look normal.

08 Setting the Admin Menu

To access the **Admin menu**, press the following buttons on the remote control:

1. Press the **MUTE** button.
2. Press the **1** button.
3. Press the **1** button.
4. Press the **9** button.
5. Press the **Select** button.

To control the TV functions in the **Admin menu**, the TV has two modes, the **Standalone** mode and the **Interactive** mode. The menu items that differ between the modes are listed below.

Menu items in the **Standalone** mode only:

- **SI Vendor:** OFF / Movielink / Swisscom / SSCP
- **LYNK Cloud, LYNK HMS, Virtual Standby, Room Number** and its submenus.

Menu items in the **Interactive** mode only:

- **SI Vendor:** Samsung and other vendors.

All other items appear in both modes.

After a menu appears, follow these general directions to navigate and change values:

- Use the directional buttons on the remote control to move from menu item to menu item.
- Press the **Select** button on the remote control to select a menu item. The screen displays that menu item only.
- Press the left or right directional button to change a value. The right directional button increases numerical values. The left arrow button decreases numerical values.
- When the screen is displaying one menu item, you can press the up or down directional button to display the next or previous menu item.
- Press the **RETURN** button to exit the current menu item and go to a higher menu level.
- To exit a **Admin menu**, turn off the TV, and then turn it on again. Any changes you made are saved except changes to SI (System Integration) vendor. For changes to SI vendor, you must turn the TV off, wait until the power indicator at the bottom of the TV glows steadily. And then unplug the TV's power cord, wait for the power indicator to go off, and then plug the TV's power cord in again.

To change menus between the **Interactive** mode and the **Standalone** mode, follow the steps below:

1. Highlight the **Hospitality Mode** menu item in the top left corner of the menu.
2. Press the **Select** button on the remote control. Only the **Hospitality Mode** menu item is displayed.
3. Press the left or right directional button to change the **Hospitality Mode** item from **Standalone** to **Interactive** or from **Interactive** to **Standalone**.
4. Press the **RETURN** button on the remote control. The entire menu re-appears with your selection displayed in the **Hospitality Mode** item.
 - After you have set the values in one TV, you can clone those values to multiple TVs.
 - For more information about the USB cloning refer to page 30.

Admin menu items

To exit from this menu, turn off (or turn off and unplug the power cable if you have changed SI vendor) the TV, and then turn on again. Any changes you made are saved.

- The menu items may not be supported depending on the model or geographical area.

Admin menu Item	Description	
SI Vendor	OFF / Movielink / Swisscom	
Power On	Power On Channel	Set the channel to display when the TV is turned on. <ul style="list-style-type: none"> • User Defined: Lets you set the channel number manually on Power On Channel Num. See Power On Channel Num below. • Last Saved: If you select this item, when the TV is turned on, it displays the channel it was displaying when it was turned off.
	Power On Channel Num	When the TV is turned on, it switches automatically to this channel.
	Power On Channel Type	Select the type of the channel will be displayed when the TV is turned on. ATV (analogue air band), DTV (digital air band).
	Power On Volume	Set volume level when the TV is turned on. <ul style="list-style-type: none"> • User Defined: Lets you set volume level manually. • Last Saved: When the TV is turned on, it returns to the volume that had been set when the power had been turned off.
	Power On Volume Num	The TV turns on with set volume level in Standalone mode.
	Min Volume	The minimum volume level the user can set in Standalone mode.
	Max Voume	The maximum volume level the user can set in Standalone mode.
	Power On Source	Select the input source to be displayed when the TV is turned on.
	Power On Option	Determines the TV's state when power returns after a power failure or after you have unplugged the TV and then plugged it in again. <ul style="list-style-type: none"> • Last Option: Returns to its last power state. If it was in standby mode, it returns to standby mode. If it was on, it turns on. • Power ON: When the power returns, the TV turns on. • Standby: When the power returns, the TV enters the standby mode.
Channel	Channel Setup	Gives you direct, immediate access to some of the channel menu functions on the Broadcasting menu such as Auto Tuning , Programme Rating Lock , Audio Options , etc.
	Channel Editor	Lets you edit the channels stored in the TV's memory. <ul style="list-style-type: none"> • Change the channel numbers and names, manage genre and language groups and delete channels. • Apply the Screen Off to channels you select. The Screen Off blanks out the video from a channel and outputs only audio. • Lets you view information about each channel easily, without your having to display each channel directly.

Admin menu Item	Description	
Channel	Mixed Channel Map	<p>Enables showing/browsing all antenna type (Air/Cable) channels at the same time.</p> <ul style="list-style-type: none"> • ON: When set to on, guests can access the complete channel map irrespective of the selected antenna type. The Channel List/Channel Editor will also populate Air as well Cable type channels. • OFF: When set to off, guest can access the channel map corresponding to the selected antenna type (Air/Cable) only. The Channel List/Channel Editor will only show the selected antenna type channels.
	Dynamic SI	<ul style="list-style-type: none"> • ON: The TV will check the DTV programme channel number automatically. (You can't edit DTV programme channel number in Channel Editor.) • OFF: You can't check the DTV programme channel number. (You can edit DTV programme channel number in Channel Editor. While TV do not support auto channel number update.)
	Channel Rescan Message	<p>When there is a mismatch between the data in the channel map and the transmitted data, the TV autotunes the channels to restore the data/parameters in the channel map.</p> <ul style="list-style-type: none"> • ON: When Channel Rescan Message is set to on, the OSD showing that the channels are being rescanned will be displayed to the guest. • OFF: When Channel Rescan Message is set to off, if the rescan message OSD should not to be displayed to the guests.

	Quick Settings Editor	Edit the items to be displayed in Quick Settings and change their order.
	Samsung Account	Create and manage your own Samsung account.

Admin menu Item		Description
Security	Factory Lock	Disable entry to Admin menu . <ul style="list-style-type: none"> • ON: The password is needed before entering Admin menu. • OFF: Disable this function.
	Password Popup	Enable or disable password input popup window. If this option is set to off, the TV will not display the password input popup window when entering the Admin menu . If set to ON , the password input popup window appears.
	Password Input	If this function is enabled, the password input popup window appears which asks for an 8-character security password. The admin must enter a password before applying or updating security preferences. After the correct password is entered, options such as Password Setting , Password Reset and Security Mode are available.
	Password Setting	User can change the password.
	Password Reset	Password is reset to "00000000."
	Security Mode	Provides password protected administrative functionality to enable or disable features of hospitality TV, such as USB , HDMI . To use this option, Security Mode set to ON . After Security Mode set to ON , options such as USB , HDMI are automatically enabled.
	USB	Enable or disable USB access. If this function is set to Disable , access to USB media is blocked. Clone USB to TV and TV Reset will be disabled in the Admin menu .
	HDMI	Enable or disable HDMI access. If this function is set to Disable , Anynet+, HDMI source, HDMI type external channels will not be accessible to the user.
TTX Security	If this option is disabled, the TTX feature will not work when the TTX button is pressed on the remote control.	
DRM	DRM Mode	Configures DRM support. <ul style="list-style-type: none"> • OFF: Turns off DRM support. • LYNK DRM: Select to turn on LYNK CAS support only.
System	Self Diagnosis for TV	Run the Device Care menu. <ul style="list-style-type: none"> • Start Device Care: Diagnoses and optimises your TV. • Manage Storage: Manage the TV storage capacity. • Self Diagnosis: Diagnoses issues with your TV and Smart Hub, and then resets the functions. • Request Support: Request a service when any problem occurs on your TV.

Admin menu Item	Description	
System	System Manager	Gives you direct, immediate access to System Manager functions such as Time , Language , Change PIN . System Manager allow you to adjust your TV's system and customise settings for your viewing environment.
	OTN Update	Lets you upgrade the TV Software over the network when a valid upgrade file is present on server. <ul style="list-style-type: none"> • OTN Update changed to ON and disabled when Enrollment Status in LYNK Cloud is Yes.
	SW Update	Lets you upgrade the TV Software with a USB device.
	About This TV	Display the Samsung web site, and product and software information.
	Standby LED	When the TV is in standby mode, you can configure the settings of the power indicator. <ul style="list-style-type: none"> • ON: The LED is on. • OFF: The LED is off.
	TV Reset	Returns all settings on the TV to their factory defaults.
*LYNK Cloud	Enrollment	Lets you enroll the TV with LYNK Cloud solution.
	Enrollment Status	Check the status of the TV enrollment in the LYNK Cloud service.
**Virtual Standby	Virtual Standby Mode	When the AC power cord is plugged in and the power is off, this option maintains the TV's important features even after the screen is off. <ul style="list-style-type: none"> • Electricity consumption may vary depending on the environment.
	Reboot Time	After the TV power is off (in Virtual Standby Mode) if there is no input from the user within the set Reboot Time , the TV will reboot and enter Virtual Standby Mode again.
Room Number	You can set the room number of the TV's location. When Device Name menu is launched, enter the room number.	

- *: When using wireless network, IPTV multicast may not be supported.
- **: This function is available when **Enrollment Status** in **LYNK Cloud** is set to **ON**.
- Refer to the manual of each solution for details about functions and settings of the solutions such as **LYNK Cloud**.

USB Cloning

Admin menu > Cloning

The USB cloning function lets you download user-configured settings (**Picture, Sound, Broadcasting, Admin menu** and so on) from one TV to a USB device, and then upload these settings from the USB device to other TV sets. This lets you create a standard file of settings and distribute that standard file to all the TVs in your facility.

- After cloning, certain features are applied when the TV is turned on again.

Cloning TV to USB: Copies stored menu settings from a TV to a USB device

Admin menu > Cloning > Clone TV to USB

1. Insert a USB device into the USB port on the rear of the TV.
2. Go to the **Admin menu**.
3. Press the up or down directional button to select **Clone TV to USB**, and press the **Select** button on the remote control.
 - The clone folder will be labelled **T-KTS2DEUC**.
 - The cloned values include the values on the guest side menu (**Picture, Sound, Broadcasting** and so on) and the **Admin menu**.

Cloning USB to TV: Copies menu settings and channel data in a USB device to a TV

To clone data to the TV using the **Admin menu**, follow these steps:

1. Turn the TV off.
 2. Insert the USB device into the USB port on the rear of the TV.
 3. Turn the TV on.
 4. Go to the **Admin menu**.
 5. Press the up or down directional button to select **Clone USB to TV**, and press the **Select** button on the remote control.
 6. The message **Clone settings from USB to TV** is displayed. Press the **Select** button on the remote control.
 - If there is no file to copy on the USB device or the message that there is no file appears, check the folder on your USB device.
 - The folder name should be **T-KTS2DEUC**.
 - Tables that list the settings that are cloned in the **Admin menu** begin on the next page.
-  Turn the TV off, insert the USB device, turn the TV on, and press the **Select** button on the remote control for 5 seconds, then this menu is displayed.

Pre-condition for cloning (check point)

- Cloning should be done between same model (same SW version).
- Before cloning, all displays should be updated at the latest version (same SW version).

Settings Cloned in the Admin menu

- The menu items may not be supported depending on the models.

Setting Auto Initialize

Admin menu > Cloning > Setting Auto Initialize

When you clone settings from one TV to another, you clone both the guest side menu and hotel side menu settings: **Picture, Sound, Broadcasting, Admin menu** and so on. This lets you set nearly all of the menu values on your hospitality TVs to the same, standard settings. If you allow guests access to the guest side menus, for example the **Picture** menu, they can change the settings in those menus so they are no longer standard. If you set the **Setting Auto Initialize** function to on, the TV automatically restores (Initializes) any guest side menu values to the cloned, standard values when the TV is turned off and then turned on again. Note that **Setting Auto Initialize** works on cloned guest side menu values only. Then unplug the TV's power cord, wait for the power indicator to go off, and then plug the TV's power cord in again. Settings which have not been cloned are ignored.

The table below lists the settings that are restored to their cloned values when you set the **Setting Auto Initialize** function to on.

- The menu items may not be supported depending on the models.

Updating the TV's Software

DO NOT turn off the TV's power until the update is complete. The TV will turn off and on automatically after completing the software update. Video and audio settings will be reset to their defaults after a software update. To easily reset the settings after software update, we recommend you to copy the TV's settings.

- For more information about the USB cloning function, refer to page 30.

Updating through a USB device

To update the TV's software, follow these steps:

1. Insert a USB device containing the software update file into the USB port of the TV.
 2. Run **SW Update**.
 - **Admin menu > System > SW Update**
 3. The TV displays a pop-up message that checks for the updated version.
 4. Move the focus to **OK**, and then press the **Select** button on the remote control.
- Please be careful to not disconnect the power or remove the USB device while upgrades are being applied. The TV will turn off and turn on automatically after completing the SW upgrade. Please check the SW version after the upgrades are complete.

09 Editing Channels

Using Channel Editor

 Admin menu > Channel > Channel Editor

Using **Channel Editor** you can edit the channels stored in the TV's memory.

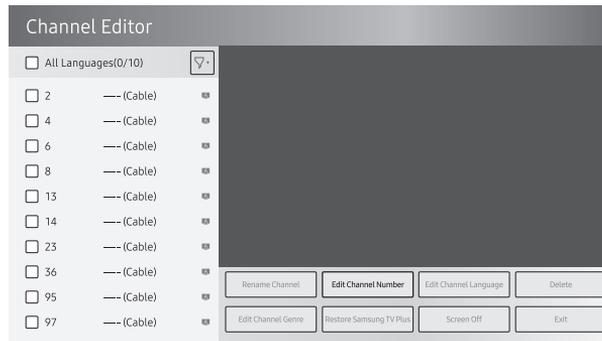

- Change the channel numbers and names, edit the channel language and channel genre and delete channels.
- If you set the **Screen Off** function to **On** for the selected channels, a screen off message is displayed, and pictures are turned off by the **Screen Off** function and only audio is output from those channels.
- **Channel Editor** also lets you view information about each channel easily, without your having to display each channel directly.

General Steps for Using the Channel Editor in Standalone Mode

- The image on your TV may differ from the image above depending on the model and geographical area.
1. Run **Channel Setup** (**Channel > Channel Setup**) in the **Admin menu**.
 2. Enter **Channel Editor** (**Channel > Channel Editor**) in the **Admin menu**.
 3. On a piece of paper, compile a list of channels you want to have, arranged in the order you want.
 4. Based on the list created in Step 3, rearrange the channels and edit the channel names.
 5. Press the  button to exit.

Editing the Channel Number

Change the channel number of a channel you select. To change a channel number, follow these steps:

1. Select a channel on the **Channel Edit** screen.
2. Use the directional buttons on the remote control, move the focus to **Edit Channel Number**, and press the **Select** button.
3. Use the up or down directional buttons on the remote control to change the channel number.
4. Move the focus to **OK** when done, and then press the **Select** button on the remote control.
 - When you change the channel number, the channel information is updated automatically.

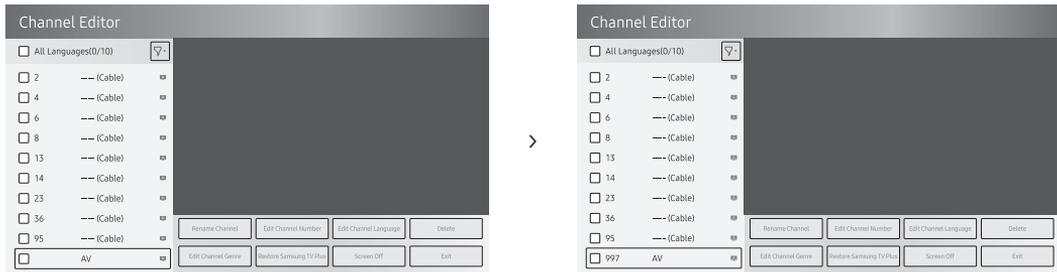

Rename the Channel

Change the name of a channel you select. To change the name of a channel, follow these steps:

1. Select a channel on the **Channel Edit** screen.
2. Use the directional buttons on the remote control, move the focus to **Rename channel**, and then press the **Select** button.
3. Use the on-screen keyboard that appears to enter the new name for the channel. Use the directional buttons on the remote control, move the focus a letter or number, and then press the **Select** button. Repeat for each letter or number you want to enter.
4. When finished, move the focus to **Done**, and then press the **Select** button on the remote control.

Assigning the Channel Number to the external device

The external device source of the TV are displayed in the last page of the **Channel Editor** menu as shown below.

1. Select a external device source on the **Channel Edit** screen.
 2. Use the directional buttons on the remote control, move the focus to **Edit Channel Number**, and press the **Select** button.
 3. Use the up or down directional buttons on the remote control to assign the channel number.
 4. Move the focus to **OK** when done, and then press the **Select** button on the remote control.
- Once you assign a channel number to an external device, you can enter the external device without opening the TV source menu.

10 Specifications and Other Information

Specifications

Model Name	HG32T5300E
Display Resolution	1920 x 1080
Screen Size Measured Diagonally	32 inches 80 cm
Sound (Output)	10 W
Dimensions (W x H x D) Body With stand	737.4 x 438.0 x 74.1 mm 737.4 x 465.4 x 150.5 mm
Weight Without Stand With Stand	4.0 kg 4.1 kg

Environmental Considerations

Operating Temperature	10°C to 40°C (50°F to 104°F)
Operating Humidity	10% to 80%, non-condensing
Storage Temperature	-20°C to 45°C (-4°F to 113°F)
Storage Humidity	5% to 95%, non-condensing

Notes

- This device is a Class B digital apparatus.
- The design and specifications are subject to change without prior notice.
- For information about the power supply, and more information about power consumption, refer to the label-rating attached to the product.
- You can see the label-rating attached to the back of the TV. (For some models, you can see the label-rating inside the cover terminal.)
- Typical power consumption is measured according to IEC 62087.

To access the EPREL registration of the model :

1. Go to <https://eprel.ec.europa.eu>
2. Get the model identifier from the energy label of the product and type it in the search box
3. Energy Labelling information of the model is shown

* You can directly access the product information via [https://eprel.ec.europa.eu/qr/#####\(registration no.\)](https://eprel.ec.europa.eu/qr/#####(registration no.))

The registration no. can be found on the rating label on your product.

Decreasing power consumption

When you shut the TV off, it enters Standby mode. In Standby mode, it continues to draw a small amount of power. To decrease power consumption, unplug the power cord when you don't intend to use the TV for a long time.

Supported Resolutions for Connecting a Computer

When you use your TV as a computer monitor, you can also select one of the standard resolutions listed in the Resolution column. The TV will automatically adjust to the resolution you choose.

Mode	Resolution	Display format	Horizontal frequency (KHz)	Vertical frequency (Hz)	Clock frequency (MHz)	Polarity (horizontal / vertical)
IBM	720 x 400	70 Hz	31.469	70.087	28.322	-/+
MAC	640 x 480	67 Hz	35.000	66.667	30.240	-/-
